JQ TRADING GROUP PTY LTD

**5/26 RYELANE STREET MADDINGTON,
WA 6109**

Company Profile

CANGZHOU DUOTONG METAL PRODUCTS Co., Ltd., founded in 2014, is a leading manufacturer specializing in malleable iron pipe fittings. With a strong emphasis on quality control, innovation, and customer satisfaction, we serve clients across China and export to regions including North America, Europe, Southeast Asia, the Middle East, and Africa.

To strengthen our presence in the Australian market, we work in partnership with J&Q Trading Group Pty Ltd, our exclusive distributor in Australia. J&Q Trading Group focuses on delivering our high-quality pipe fittings to Australian clients, offering both OEM and ODM solutions. Their local expertise ensures responsive service, faster delivery, and tailored support for a wide range of customer needs.

Together, we are committed to providing reliable products, competitive pricing, and long-term value to our partners in Australia.

Malleable iron Pipe Clamps

Material

Malleable iron Pipe Clamps are designed by using malleable iron in accordance with ASTM A197 which applies for good mechanical strength and enough elongation characters. The surface treatment of the clamps is hot dipped galvanized which meet the specification of ASTM A153 to anti-rusting and corrosion. Or according to end-users requirements to match different circumstance.

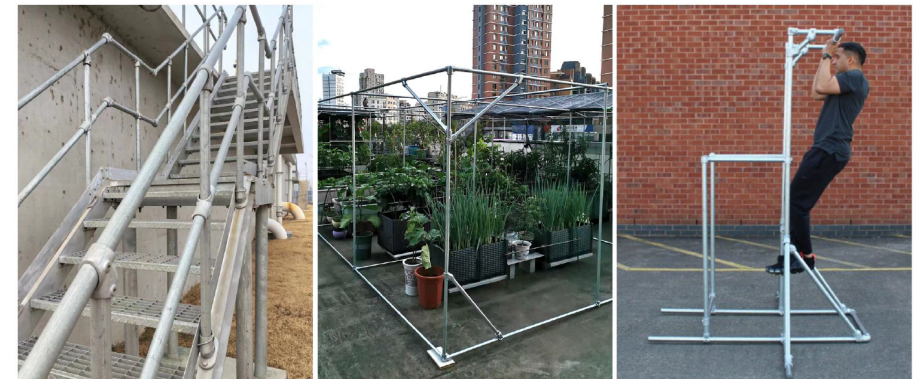

Size

Six different sizes are available as following, By using the product code along with the size code will be easily identify the single clamp between both.

Pipe Clamp Size	Nominal Bore	Outside Diameter
S	3/8"	17.2mm
T	1/2"	21.3mm
A	3/4"	26.9mm
B	1"	33.7mm
C	1-1/4"	42.4mm
D	1-1/2"	48.3mm
E	2"	60.3mm

Applications

Pipe Clamps are widely used in hand railing safety guard railing situations. The system securely joins standard sizes of structural steel tube into almost any configuration imaginable.

KEY CLAMP PIPE FITTINGS

An indication of typical applications

Handrails, Fences & Security Fencing, Playground Equipment, Milking Parlours, Railway Guardrailing, Garment Racking, Market Stalls, Cycle Racks & Trolley Bays, Sports Practice Nets (Golf, Cricket, Baseball, Football etc.) Sports Grounds & Arenas, Machinery Guards & Enclosures, Motorway Control installations, Road Signs, Roof top Fall Prevention Systems, Heavy Duty Workstations, Safety Guardrails, Retail Displays & Shopfitting, Racking, Agricultural Enclosures, Greenhouses, Exhibition stands & displays, Industrial & Domestic Furniture, Temporary Buildings, Wheelchair Access Ramps, Theme Park Queue Management, Canopies & Car Ports, Lighting Supports, Roof Guardrails, Film sets, Cable reels, General Signage, Civic Amenity, Recycling Sites, Shipbuilding, Access Platforms, Mezzanine Floors, Water Treatment Works, Staircase Handrails, Commercial Billboard Frames and many other usage.

Installation

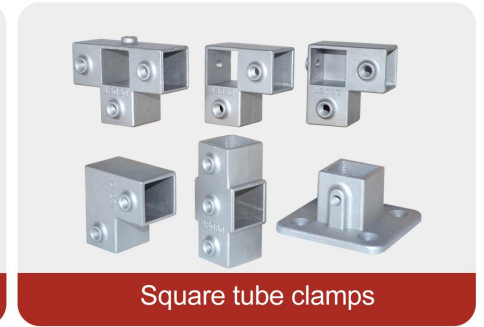

Flexible solutions for all types of safety barriers. Widest range of safety components, no weldings, so no hot permits required. No threading of bolting, so no special tools required. Cost effective to install as only low skilled workforce required.

ALUMINUM ALLOY

KEY CLAMP PIPE FITTINGS

Aluminum Alloy Round Pipe Clamps

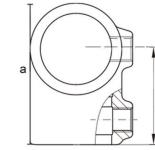

The biggest advantage of aluminum alloy connector is that it greatly improves the mechanical strength and surface hardness of aluminum, and still maintains the inherent characteristics of light weight of aluminum, and its use value increases. In particular, after the diversified surface treatment of aluminum alloy, the beauty of aluminum alloy products is greatly improved. Product specification: 1/2 3/4 1

Application

The following are only limited examples of a wide range of application scenarios

ALUMINUM ALLOY

KEY CLAMP PIPE FITTINGS

Aluminum Alloy Square Tube Clamps

In addition to the advantages of the round tube aluminum alloy, the square tube itself is a right Angle and has an Angle, so the shelf is more stable than the round tube, and the closed state can reach 100 kg.

Storage racks, shelves, tables and chairs, breeding cages, worktables, and other frame structures, a wide range of applications.

CAST IRON

KEY CLAMP PIPE FITTINGS

Premium Cast Iron Round Pipe Clamps

High-quality cast iron connectors with good mechanical properties and ductility. The surface of the frame product can be rust and corrosion resistant by standard hot dip galvanizing + electric galvanizing treatment. We can also customize hot plating, electroplating and black surface treatment according to customer requirements to adapt to different use environments.

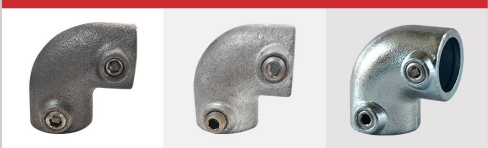

Product specification: 1/2, 3/4, 1, 1 1/4, 1 1/2, 2

Application

CAST IRON

KEY CLAMP PIPE FITTINGS

ALUMINUM ALLOY

KEY CLAMP PIPE FITTINGS

Premium Cast Iron Square Tube Clamps

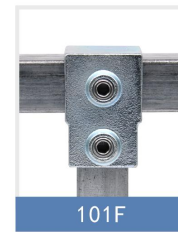

Advantages of cast iron: The biggest advantage of cast iron material has good mechanical properties and ductility. The surface of the frame products can be rust and corrosion resistant after hot dip galvanizing + electroplating treatment. Can also be customized according to customer requirements, hot plating, black products, electroplating surface treatment, to adapt to different use environment.

Product specifications:
20*20/25*25/30*30/40*40(mm)

Application

CARBON STEEL

KEY CLAMP PIPE FITTINGS

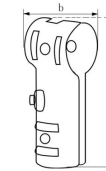

Carbon Steel Round Pipe Clamps

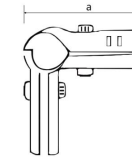

Clamping piece, open connection, carbon steel material, reinforcement without disassembling the original structure, easy installation, low cost. This product adopts mortise and tenon design, so that the joints between the members are compatible, can withstand large loads, allow a certain deformation, so as to form an elastic frame and the connecting parts are equipped with circular holes, allowing the harsh conditions and pipes to be reinforced again to ensure the stability of the structure.

Application

CARBON STEEL

KEY CLAMP PIPE FITTINGS

Carbon Steel Square Tube Clamps

Clamping piece connector, open connection, carbon steel material, reinforcement without disassembling the original structure, large size pipe drilling, closely connected with pipe fittings, strong and reliable.

This product adopts mortise and tenon design, so that the joints between the components are consistent, can withstand large loads, allow a certain deformation, thus forming an elastic frame, and the above with a round hole and the round hole on the square pipe are closely connected through the carriage bolt, strong and non-shaking.

PPR ROUND PIPE FITTINGS

KEY CLAMP PIPE FITINGS

PPR Round Pipe Clamps

PPR has excellent corrosion resistance, also shows good thermal stability, can with stand long-term use at higher temperatures; Its light weight, easy to carry and install characteristics, reduce the burden on the shelf structure; PPR pipe has strong service life, good impact strength and toughness, and is not easy to break and damage. It is one of the indispensable materials in modern engineering.

Product specification: ¾

Adapter outer diameter (mm) 6 points (¾) for pipes ≤26.5mm
